1. Purpose and Status of this Annexure

This Annexure sets out, for the Applicant, the proforma adopted by the Company for the District Franchisee opportunity, the basis on which income is expected to arise, and the manner in which income is settled and verified. It is issued for reference and discussion.

This Annexure is not part of the Memorandum of Understanding (MOU), is not legally binding as to income, and does not constitute a guarantee of income. Actual income shall depend on actual registrations, actual recharges, actual top-ups, actual advertisements, actual dine-in, delivery and booking volumes, market conditions, Circular updates, and verification by the Company. All figures in this Annexure are projections for understanding only.

The Tender retains the commission percentages in summary form. This Annexure retains the rupee calculation. The two documents are to be read together. Where any figure in this Annexure differs from the Tender on fee / EMI, the Tender Section 8 shall prevail - and Section 8 of this Annexure repeats the Tender Section 8 exactly, so the two match.

2. Basis and Scope of the Proforma

Scope - District OWN only. The figures in this Annexure relate to the District Franchisee's own area only. Business Centre and Municipal / Corporation override income is not included in this proforma. Any such override, if applicable, shall be dealt with separately and shall not be inferred from this Annexure. The fee for this variant is Rs.15,05,250/- because the District district contains corporation + municipality (in same district). The proforma below is the same District OWN proforma for both variants; only the fee, net, and break-even differ.

Basis adopted: (i) Year 1 - as per the 365 Days plan, total Rs.2,46,26,960 (Poster + Video). (ii) Years 2-5 - no new vehicle or business registration; all Year 1 registrations continue. (iii) Vehicles in Years 2-5 - 5,000 vehicles recharge daily. (iv) Business top-up in Years 2-5 - 5,000 businesses, one top-up per business per month. (v) Advertisements in Years 2-5 - 2,500 advertisement businesses, 52 advertisements per business per year (65,000 Poster + 65,000 Video). (vi) Dine-In in Years 2-5 - 500 dine-in businesses, 10 orders per business per day. (vii) Delivery / Booking in Years 2-5 - 100 orders / bookings per day each. Actual performance may vary from this basis.

SAMPLE COPY - For Reference & Discussion Only - Not For Execution | Original Valid Only on Rs.200 Stamp Paper - Year 2026

Basis	Recovery of Rs.15,05,250 (Gross)
At Full Proforma - Year 1 Average	Rs.15,05,250 / Rs.20,52,246.67 per month = 0.73 month, approximately 22 days of Year 1 average gross
At 50% Performance - Year 1 Average	Rs.15,05,250 / Rs.10,26,123.33 per month = 1.47 months, approximately 44 days of Year 1 average gross
By Registration Alone	Rs.15,05,250 / Rs.135 per vehicle registration = 11,150 vehicles. Registration alone does not recover the fee within the 5,000-vehicle Year 1 target. Recovery depends on recharge, top-up, advertisements, dine-in, delivery and booking together, as per Section 3.

Break-even in this Appendix means recovery of the franchise fee from gross income as per the proforma. It is not a statement of net profit, and it does not take into account GST, tax, TDS, EMI, staff cost, rent, advertisement cost, or other operating expenses. The Applicant shall prepare a separate net-profit assessment, taking into account local costs, before entering into the MOU.

Appendix A and Appendix B are part of this Annexure for reference and discussion. They do not alter the full proforma in Section 3, the settlement procedure in Section 7, or the validity clause in Section 11. Where any figure in an Appendix differs from Section 3, Section 3 shall prevail.

12. Declaration - Annexure B

The Applicant confirms that this Annexure B has been read in full. The Applicant understands that this Annexure is for description / projections only, is not part of the MOU, is not legally binding, and is not guaranteed.
